Tim Koogle, the founding CEO of Yahoo!, is spearheading a luxury community called El Banco just north of Puerto Vallarta. One of its prime properties, Villa Mirador, is a study in beachside elegance, with a checkerboard-floored loggia (below), a formal living room and a wraparound deck that has a spa and an infinity-edge pool. The four-suite, seven-bath residence (there is also a separate studio apartment) offers views of the mountains, El Banco Beach and the Marieta Islands. The interior spaces alone total 7,410 square feet. \$6.25 million.
